

ILT TO SELF-PACED DIGITAL TRAINING CONVERSION

LEVEL	TIME FRAME	BEST PRACTICES	OPTIMIZATION
Resource Library	Up to 4 weeks	Transform your training content into a digital resource library that allows learners to choose from the most relevant content and access critical content on the job.	Up to 30% reduction in seat time
Augmented Resource Library	5-8 weeks	Engage your learners with a higher degree of interaction, blending the efficiency and convenience of a resource library with targeted activities to help information stick and offer practice for critical skills.	Up to 50% reduction in seat time
Complete Redesign	10-12 weeks	Redesign your training experience entirely through a complete redesign and transformation of your ILT. Your new web-based program is built from a foundation we identify by mapping desired behaviors, skills, and mindsets to business and performance outcomes, resulting in the following: <ul style="list-style-type: none"> - New performance and learning objectives (using our instructional model) - Key design strategies and activities aligned with learning objectives - Personalized learning experience that integrates multiple modalities and learning path(s) - Rollout and post-training plan 	Up to 75% reduction in seat time
